

The Rendina Family Foundation strives to enhance the quality of life for families and individuals who have been affected by cancer. We endeavor to accomplish this through the funding of organizations, hospitals and biotechnology companies that excel in researching and developing cures for cancer. In addition, we support efforts to increase the general welfare of the communities in which the Foundation is actively involved.

Since its inception in 1997, the Rendina Family Foundation has donated and committed more than \$4.7 million to the various organizations it supports.

The Rendina Family Foundation, Inc. is a private foundation and is tax-exempt under Section 501(c)(3) of the Internal Revenue Code.
